Operating theatres AKCmed guarantee to you,  
that from first drafts up to final realization you  
will cooperate with team of qualified professionals.

We will elaborate for you superior realization pro-  
ject, which will comply with the highest hygi-  
enic and ventilation standards as well as qua-  
lity lighting needed for operating theatres.

With help of our trained employees we will deliver  
and install operating theatres, which will fulfill all de-  
mands put on them even after 20 years of operation.

Not only during the guarantee period, but also in  
following years we will work together with you on  
possible update, so operating theatres will be still in  
accordance with latest trends in health technology.
